email: kmf@kmftraffic.com

KMF is a traffic engineering consultant company providing traffic data collection and technical services to Engineering companies in Florida and the East Coast. We have managers and supervisors who have experience in the traffic data collection field, to ensure surveys are carried out efficiently and effectively.

Karen Fiorillo Esq. (NJ) Principal : Is a graduate of Seton Hall Law School in New Jersey. She is in charge of all data collection and processing activities. Karen has participated in Traffic Data Collection for companies in NJ, NY, FL.

Mario Fiorillo, Senior Traffic Engineer Technical Advisor: is a certified "Traffic Signal Inspector" by the FDOT and the International Municipal Signal Association. He has over 30 years of diverse experience in the areas of Traffic Signal Design and Traffic Operations with particular skills in the detailed analysis of traffic operations and Traffic Studies.
